SUMMARY

Machine Learning Engineer with 2+ years of experience delivering machine learning, data engineering, and analytics solutions across retail, market research, and logistics. Built automated data pipelines, AI-powered reporting systems, and analytics solutions that improved business decision-making. Looking for a Machine Learning Engineer role where I can develop production-grade AI solutions at scale.

WORK EXPERIENCE

ML Engineer Intern,Engagesphere Technology Pvt Ltd **Dec 2025 - Aug 2026**

- Engineered an automated data pipeline using Python, SQL Server, and Power BI to extract, transform, and consolidate retail sales and inventory data, eliminating manual reporting and enabling daily business insights.
- Built an AI-powered business reporting system that automated KPI generation and dashboard updates, supporting pricing, inventory optimization, forecasting, and data-driven decision-making.

Market Research Analyst, iSOURCE Opportunities Pvt Ltd **June 2023 - Feb 2024**

- Market Intelligence & Business Research Team — delivering customer insights, competitive analysis, and strategic reporting for enterprise technology clients including Lenovo, SoftwareOne, and Commvault.
- Performed statistical analysis using Excel and SPSS to evaluate customer sentiment, market trends, and competitive performance, delivering insights that contributed to a 20% increase in customer engagement and supported strategies driving 15% year-over-year revenue growth.

Analyst, Kargo League Logistics Pvt Ltd **Sept 2018 - Feb 2021**

- Managed import and export documentation, including Letters of Credit (LCs), Bills of Lading (BLs), commercial invoices, and customs records, improving documentation accuracy by 25% and ensuring compliance with international trade regulations.
- Improved logistics operations by reducing shipment processing time by 2 hours, increasing on-time deliveries by 15%, and reducing customs delays by 20%.

EDUCATION

Master of Science in Business Analytics **Sept 2024 - Dec 2025**

Queen's University Belfast

Bachelor of Computer Application **Aug 2015 - Sept 2018**

University of Mysore

CAPSTONE PROJECT

- MediChat Pro-** Designed a RAG-based medical chatbot for accurate, context-aware responses using medical knowledge sources.
- Term Deposit Marketing-** Built a predictive ML model to identify customers likely to subscribe to term deposits.
